# 1 Document management

## 1.1 Document history

Version	Date	Author	Description of changes / remarks
1.0	01/10/2019	eHealth platform	Initial Version

## 2 Use of the eHealth SSO solution

The complete overview of the profile and a systematic implementation to start protecting a new application with SSO @ eHealth is described in the eHealth SSO cookbook.

This section specifies how the call to STS must be done to have access to the web service. You must precise several attributes in the request.

To access the Medical House Membership web services, the response token must contain:

- "true" for all of the boolean certification attributes.
- a value for all the nihii11 certification attributes.

If you obtain:

- obtain "false" for one boolean certification attributes;
- do not obtain any value for one of the nihii11 certification attributes.

Contact the eHealth platform to verify the configuration of the requested test cases.

The documents MHM\_STS\_samlRequest.xml and MHM\_STS\_samlResponse.xml provide STS request/response examples.

### 2.1 Healthcare institution

The SAML token request is secured with the eHealth certificate of the institution. The certificate used by the HOK verification mechanism is the same eHealth certificate. The needed attributes depend on the institution type (for example: hospital, labo, group of nurses, ...).

#### 2.1.1 Medical house

The needed attributes are the following (AttributeNamespace: "urn:be:fgov:identification-namespace"):

- The NIHII number of the medical house:
  - *urn:be:fgov:ehealth:1.0:medicalhouse:nihii-number*
  - *urn:be:fgov:ehealth:1.0:certificateholder:medicalhouse:nihii-number*

Medical house must also specify which information must be asserted by the eHealth platform.

- The NIHII number of the medical house (AttributeNamespace: "urn:be:fgov:identification-namespace"):
  - *urn:be:fgov:ehealth:1.0:medicalhouse:nihii-number*
  - *urn:be:fgov:ehealth:1.0:certificateholder:medicalhouse:nihii-number*
- The medical house must be a recognized medical house (AttributeNamespace: urn:be:fgov:certifiednamespace:ehealth):
  - *urn:be:fgov:ehealth:1.0:certificateholder:medicalhouse:nihii-number:recognisedmedicalhouse:boolean*
- The NIHII number (11 positions) of the medical house (AttributeNamespace: "urn:be:fgov:certified-namespace:ehealth"):
  - *urn:be:fgov:ehealth:1.0:medicalhouse:nihii-number:recognisedmedicalhouse:nihii11*
